

Developmental Disabilities Program

Spring 2011

Family and Community Services

Children's Services

Changes in Community-Based Developmental Disability Services Effective 7/1/11

Children's System Redesign

Services for children with developmental disabilities (DD) will be changing effective July 1, 2011.

This change will affect all children receiving services through a Developmental Disability Agency (DDA) and/or receiving DD Service Coordination.

Details about continuing community DD services for your child will be mailed to the address you have provided to your Medicaid Eligibility Office. Please be sure your Medicaid Eligibility Office has your current address.

Please refer to the second page of this flyer for information on dates and times of upcoming training for parents on the new system.

How the new system works...

1. Approximately four (4) months prior to your child's birthday (starting with birthdays after 10/1/11) you will receive a letter from Family and Community services (FACS) providing information on how to begin the intake process.
2. An assessment will be done to determine eligibility for services and assign a budget.
3. A Case Manager will develop, with your input, a Plan of Service based on your child's needs.
